LIST OF FIGURES AND TABLES	xxvii

PART A – BASICS

CHAPTER 1

LEGAL PROFESSIONAL QUALITY

Introduction	3
Diarying and monitoring of action-due dates	3
Practitioner judgement and management and peer review	5
<i>Patent drafting</i>	5
<i>Other IP work</i>	9
Discipline in communications	10
File discipline	12
Skill and knowledge – recruitment, training, resources, and continued professional development (CPD)	13
<i>Formal initial training</i>	13
<i>Language</i>	14
<i>Looking things up – legal and technical information sources</i>	17
<i>Scientific and technical knowledge</i>	18
<i>Legal continuing professional development (CPD)</i>	20
Quality Management Systems (QMSs) and quality standards	21

CHAPTER 2

ETHICS AND PRIVILEGE

Ethical obligations of legal practitioners – general	25
---	----

CONTENTS

Instances in IP practice where higher ethical obligations trump the interests of the client	28
Conflict of interest – general, and between the practitioner and the client	29
The “licensing problem”, especially in-house	30
Conflict between clients, for both practices and individuals, including the special case of conflict between present and former clients	31
Companies associated with the client and possible conflict	33
Disposal of intellectual property rights and possible conflict	34
Role of the client’s general counsel	34
Job titles for in-house practitioners	35
Ethical considerations not specific to practitioners	35
Privilege against discovery/disclosure	37
<i>Relevance of privilege to all IP practitioners, and plan of this Section</i>	37
<i>General principles</i>	38
<i>Type (II) privilege in the English courts, where the legal adviser on intellectual property matters is local</i>	40
<i>Type (II) privilege – US considerations affecting the work of non-US practitioners</i>	43
<i>Type (II) privilege – litigation in Canada</i>	45
<i>Type (II) privilege – litigation in civil law countries</i>	46
<i>Type (II) privilege – use of advisers in various territories</i>	46
<i>Type (II) privilege – EU competition law investigations</i>	47
<i>Client behaviour</i>	48
<i>E-discovery/disclosure</i>	48
<i>Conclusion and the future</i>	52

CHAPTER 3

SYSTEMS

Managing systems projects	53
Key systems (other than document management)	54
<i>Overview</i>	54
<i>Need for definition of roles</i>	56
<i>Records and fields: use of codes and field validation</i>	56
<i>Integration of systems/lack of</i>	60
<i>Avoiding parallel manual inputting</i>	61
<i>Report-writing</i>	61

CONTENTS

<i>Case references – general</i>	62
<i>Case reference form – filing, prosecuting, and renewing the client’s patents, designs, and trade marks (fp&r cases)</i>	63
<i>Case reference form – non-fp&r work</i>	64
<i>Case reference allocation systems ((1) in Figure 3.1)</i>	66
<i>Case management systems (CMSs, (2) in Figure 3.1)</i>	67
<i>Systems for recordal of case-related time and disbursements and for client bill calculation (TDBSs, (3) in Figure 3.1)</i>	68
<i>Time-recording systems ((4) in Figure 3.1)</i>	73
<i>Recordal of non-case-related spend (system (5) in Figure 3.1)</i>	75
<i>Finance back office (system (6) in Figure 3.1)</i>	75
<i>Recording time against recently-created cases</i>	76
<i>“Fixed” or “handling” charges</i>	76
<i>Licence/assignment payments</i>	77
<i>Conflict check</i>	77

Document management (not shown in Figure 3.1):

paper file or “paperless office”	78
---	----

Dictation and voice recognition	80
--	----

e-business	81
-------------------------	----

<i>Dealings with intellectual property offices</i>	81
--	----

<i>Dealing with clients on casework</i>	81
---	----

<i>Providing client access to practice records</i>	81
--	----

<i>Billing clients</i>	82
------------------------------	----

Renewals	82
-----------------------	----

PART B – CASEWORK

CHAPTER 4

RESEARCH AND DEVELOPMENT (R&D) AND TECHNICAL INNOVATION

“Invention” and “innovation”, and the purpose of this chapter	87
--	----

Short-termism and R&D in companies	89
---	----

The uncertainty of innovation	90
--	----

Problems of perception of R&D in industry	92
--	----

Management structures and bureaucracy in industrial R&D	92
--	----

<i>R&D strategy and management tools and models</i>	92
---	----

<i>The R&D function in the larger company</i>	96
---	----

CONTENTS

Universities	99
Collaboration and “open innovation”	102

CHAPTER 5

PATENTING

Introduction, and the addressees of this chapter	105
Legal tactics: searching and filing routes	107
<i>Prior art awareness before priority filing</i>	107
<i>Choice of priority filing country and route for substantive applications</i>	107
<i>The language of applications</i>	110
Legal tactics: content of claims and description	111
<i>Limits of the value of client comment</i>	111
<i>Drafting for the world – the priority application and the substantive PCT application</i>	113
<i>The substantive US application</i>	114
<i>The substantive EPC application</i>	115
<i>The substantive Japanese application: translation problems</i>	117
<i>Defensive publication</i>	120
Patenting strategy (what inventions to file on and with what territorial coverage and what patents to maintain): client support and education and practitioner attitude	120
Patenting strategy: uses of patents	122
Patenting strategy: some guidelines	125
The patenting strategy process	129
<i>Structure of the CMS</i>	129
<i>The internal case title</i>	134
<i>Fields in the patent family record</i>	135
<i>Commercial status narratives and updating generally</i>	139
<i>Patent cost analysis and forecasting</i>	141
<i>Engagement with the client</i>	144
<i>Managing prospective priority patent applications</i>	144
Benchmarking against competitors and the need for caution over computerised patent analysis	145
Important patents	147

CONTENTS

CHAPTER 6

EMPLOYEE INVENTORS

Introduction	149
Practicalities of inventorship and entitlement in commercial companies	151
<i>Inventorship</i>	151
<i>Entitlement</i>	153
<i>Non-compliant inventors</i>	154
<i>The employee's obligations</i>	155
Voluntary “up-front” incentives for inventors in commercial companies	156
Statutory awards to inventors under UKPA Section 40(1) for successfully exploited inventions in commercial companies	160
<i>Background to UKPA Section 40(1), and sizing the problem</i>	160
<i>Possible measures to be taken</i>	163
Voluntary awards to inventors in commercial companies for successfully exploited inventions	165
University academics as inventors	166

CHAPTER 7

UNSOLICITED TECHNICAL SUGGESTIONS (UTSs)

The UTS problem described, and a possible, purely legal response (not recommended) and its consequences	171
A more practical approach (recommended)	173
Persuading the client to adopt the recommended approach and use of client company policy	175

CHAPTER 8

BRANDING

Definition of, investment in, and value of brands	179
Cluttering	182
Brand architecture	186

CONTENTS

Choice of marks	189
Professional appearance	192
Corporate brand (or “identity”)	192
Securing company names	193
public limited company vs plc vs Limited vs Ltd	196
Securing company domain names	197
Vigilance on company names and domain names	197
Trade mark portfolio management, and important trade marks	198

CHAPTER 9

OTHER INTELLECTUAL PROPERTY RIGHTS

Purpose of this chapter	201
Second-tier patents	201
<i>France</i>	203
<i>Belgium and the Netherlands</i>	203
<i>Germany</i>	203
<i>Australia</i>	203
<i>China</i>	204
Industrial designs	204
Unregistered design right (UDR), except for semiconductor topography protection	205
Copyright	207
Rights relevant in particular sectors	210
<i>Semiconductor (or “chip” or integrated circuit) topography protection</i>	210
<i>Database rights</i>	211
<i>Supplementary protection certificates (SPCs)</i>	211
<i>Regulatory data exclusivity (RDE)</i>	211

CHAPTER 10

INTELLECTUAL PROPERTY DISPUTES – AVOIDANCE AND HANDLING

Overview of IP disputes and purpose and addressees of this chapter	213
---	-----

CONTENTS

Avoiding and curtailing IP disputes (both as defendant and claimant) – general	215
Avoiding infringement – patent clearance searching and general competitor patent awareness	220
Commencing and handling disputes, especially patent infringement disputes	222
<i>Management of outgoing and incoming assertions of infringement</i>	222
<i>Patent countersuits</i>	223
<i>Relationships and publicity</i>	223
<i>Fora for patent infringement actions – the claimant’s perspective</i>	224
<i>Defendants’ counter-arguments on patent infringement and counterclaims of invalidity</i>	229
Documentation	230
<i>Opinions – practitioner memorandum for his own reference</i>	230
<i>Opinions – practitioner’s communication to client</i>	232
<i>Management documentation – statement of a litigation’s objectives</i>	233
<i>Disputes in the case management system (CMS)</i>	234

CHAPTER 11

INTELLECTUAL PROPERTY AGREEMENTS

Aim of this chapter, and general comments on the generation of IP agreements	235
Selected legal and drafting technicalities	238
<i>Identification of the parties</i>	238
<i>Definitions – general</i>	239
<i>Definition of “Intellectual Property (Rights)” in technology agreements</i>	240
<i>Errors to watch out for in agreements</i>	242
<i>The confidentiality of the agreement itself – impact on subsequent due diligence exercises</i>	243
Management, commercial, and strategic aspects of some types of agreement	244
<i>Confidentiality agreements (non-disclosure agreements, NDAs)</i>	244
<i>Licensing of technology for money – general</i>	245
<i>Licensing of technology for money – scope and exclusivity of carrot licences arrived at by iteration</i>	247
<i>Licensing of technology for money – financial techniques</i>	249
<i>Paying contractors and consultants third parties to generate technology or other material</i>	251
<i>Sales and procurement of products and services between businesses</i>	253
<i>R&D collaboration (or “cooperation” or “consortium”) agreements</i>	253
<i>Strategic patent agreements</i>	255
<i>M&A transactions – the general background</i>	256

CONTENTS

<i>M&A transactions – IP assignments and licences in the agreements, with a straightforward disposal taken as an example</i>	261
<i>M&A transactions – IP due diligence and IP warranties</i>	265
<i>M&A transactions – the services agreement with a disposed business or joint venture</i>	266
<i>M&A transactions – “loose ends” post-completion</i>	267
Taxation	267
Administration	270
<i>Work monitoring</i>	270
<i>Income collection after licensing out for money</i>	270
<i>Registered rights management</i>	271
<i>Avoiding conflicting agreements</i>	272

CHAPTER 12

PAEs/NPEs/PATENT TROLLS, MARKING TROLLS, AND UNSOLICITED APPROACHES RELATING TO INTELLECTUAL PROPERTY RIGHTS REQUESTING PAYMENT (UAIPs)

Overview of this chapter	275
PAEs/NPEs/patent trolls	276
<i>Background</i>	276
<i>Responses to threats from PAEs</i>	279
<i>The future</i>	281
Marking trolls	282
Unsolicited approaches relating to IP rights requesting payment (UAIPs)	285

CHAPTER 13

INTELLECTUAL PROPERTY WITHIN THE COMPANY STRUCTURE OR GROUP

Overview of this chapter	285
Within a tax jurisdiction	285
<i>The legal options (intellectual property apart)</i>	285
<i>The legal options – intellectual property</i>	288
<i>Managerial principles in technology transfer</i>	290
Across tax jurisdictions	291
<i>Background</i>	291
<i>Inter-jurisdictional technology transfer</i>	293
<i>Inter-jurisdictional licensing of brands</i>	293

PART C – OTHER TOPICS

CHAPTER 14

EDUCATING THE CLIENT

Educational presentations – general299

**Educational presentations – notes on particular topics
and on particular groups of addressees**301

The term “intellectual property”301

R&D workers303

The distinction between protectability and freedom to use305

Marketing people305

Commercial/contracts people and general lawyers306

Those who control or influence the funding of IP activity307

Privilege307

Literature web-delivered or paper308

CHAPTER 15

THE FINANCIAL MODEL

The practice’s financial model309

General comments309

Hourly rates310

“Other recoveries”: risk of misalignment of the interests of the practice and of the client312

Régimes for funding in-house practices313

Budgeting and the problem of small practice size316

The paying client’s financial model318

General318

IP spend (not litigation) – statistical problem318

IP litigation320

Accountants320

CHAPTER 16

INFORMATION SECURITY

Introduction321

Basic protection for all information322

CONTENTS

Patent filing and prosecution – unfiled applications	324
National security and public safety – UK practitioners dealing with inventions for UK-resident clients and/or UK-resident inventors	327
<i>Aim of this Section and overview</i>	327
<i>Territory of first (and “early”) filings of the application for an invention</i>	329
<i>Observing prohibition orders under UKPA Section 22</i>	332
<i>Handling</i>	332
<i>Requests to lift Section 22 orders</i>	334
National security otherwise than in the course of patenting: export controls	335
Commercially sensitive non-patenting information	336

CHAPTER 17

BUSINESS CONTINUITY PLANNING (DISASTER RECOVERY)

General principles	339
Computer backups	341
Hardware and accommodation, and the core team	342
Storage	343
Staff awareness	343
Testing	344
In-house practices – special considerations	345

CHAPTER 18

PEOPLE AND ORGANISATIONS

Practitioners – client-facing vs functional organisation	347
Practitioners and their “comfort zone”	349
Paralegals/formalities staff	352
Secretarial staff	353
Reading and training for interpersonal, problem-solving, and decision-making skills	353

CONTENTS

In-house practices	357
---------------------------------	-----

CHAPTER 19

INTELLECTUAL PROPERTY POLICIES

What is a “policy”? – and overview of this chapter	359
Formal policies	359
Informal policies	363
Policy compliance	364

CHAPTER 20

LOBBYING ON INTELLECTUAL PROPERTY LAW

Introduction – definition and structure of lobbying	365
Guidelines for lobbying	371
Case studies	372
<i>Case study A: establishment of the EPC</i>	372
<i>Case study B: second-tier patent rights in Europe</i>	373
<i>Case study C: repeal of the UKPA Sections 44 and 45 by the Competition Act 1998</i>	377
<i>Case study D: replacement of EU Regulation 2659/2000 by Regulation 1217/2010 and disclosure of IPRs</i>	378
<i>Case study E: TRIPS Part II</i>	380
<i>Case study F: the planned (EU) Unified Patent Court (UPC) – attorney-client privilege</i>	383
<i>Case study G: the planned (EU) Unified Patent Court (UPC) – representation</i>	385
<i>Case study H: the planned (EU) Unitary Patent – issues on the table</i>	386
Ethics and regulation of lobbying	387

APPENDICES

APPENDIX 0: THE SURVEY	391
APPENDIX 3.1: DATA FLOW BETWEEN SOFTWARE SYSTEMS	396
APPENDIX 3.2: FINANCIAL TRAINING FOR INTELLECTUAL PROPERTY PRACTITIONERS	398
APPENDIX 3.3: PURCHASE ORDER SYSTEMS	401

CONTENTS

APPENDIX 4.1: R&D TO INNOVATION, CASE STUDIES	403
APPENDIX 5.1: JAPANESE TRANSLATION PROBLEMS	411
APPENDIX 5.2: USE OF ANECDOTES JUSTIFYING PATENTING	415
APPENDIX 8.1: A SMALL SURVEY OF REGISTRATIONS COVERING AN ENTIRE CLASS OF THE <i>NICE CLASSIFICATION</i>	417
APPENDIX 9.1: MARKING OF DOCUMENTS (PAPER OR ELECTRONIC)	419
APPENDIX 10.1: DIFFICULTIES OF CLAIM INTERPRETATION BY TECHNICAL AREA	421
APPENDIX 16.1: DOUBLE-ENVELOPING	426
APPENDIX 20.1: SELECTED PROFESSIONAL BODIES AND TRADE ASSOCIATIONS	427
APPENDIX 20.2: SOME ASPECTS OF EUROPEAN NATIONAL PATENT LAW AND PRACTICE CA 1975	430
APPENDIX 20.3: SOME RESEARCH ON THE EFFECT OF PATENTS IN DEVELOPING AND LEAST DEVELOPED COUNTRIES	432
APPENDIX 20.4: ATTORNEY-CLIENT PRIVILEGE IN THE 15TH DRAFT OF THE RULES OF PROCEDURE OF THE UNIFIED PATENT COURT (UPC) DATED 31 MAY 2013	434
APPENDIX 20.5: REPRESENTATION IN THE UNIFIED PATENT COURT (UPC)	436
APPENDIX T: TRADE MARKS REFERRED TO IN THIS BOOK	438

ABBREVIATIONS, REFERENCES, INDEX

ABBREVIATIONS USED IN THIS BOOK	441
REFERENCES	449
INDEX (INCLUDING OF CASES AND LEGISLATION)	475
